Therabody Launches Three Evolved Breakthrough Theraguns

The most innovative massage gun range to date is designed to push the boundaries of recovery and propel peak physical and mental performance.

London, UK, March 2024- Wellness tech industry leader Therabody is launching the next generation of Theragun devices – three new product introductions, designed to serve a wider range of customer pain points than ever before.

"Since the first Theragun, we've worked nonstop to deliver our proven science quietly and incorporate LED therapy," said Therabody Founder and Chief Wellness Officer, Dr. Jason Wersland. "My vision has always been to get Theragun into as many people's hands as possible - to help as many people as we can. This new generation of devices takes us one-step closer to that as these innovations make the Theragun range more effective than ever before."

"We've always been at the forefront of innovation in recovery," said Therabody CEO, Monty Sharma. "This evolution is about our best-in-class, cutting-edge, most powerful Theragun device ever for quicker recovery and better performance. Every individual, no matter their background or daily fitness routine, faces physical challenges, and these new Theraguns make the promise of relief and recovery more accessible than ever before."

Therabody Theragun PRO PLUS

PN TG0003970-3A10
 RRP 599,96 €
 EAN 840295401898

- The Theragun PRO Plus device is Therabody's most cutting-edge device for those relentlessly pursuing the upper limits of their performance.
